Decorative & Architectural Lighting for Residential Spaces

Residential lighting, designed with intention.

Bock Lighting for the Home

Bock Lighting creates fixtures that bring together architectural clarity and decorative presence, with flexible finish and lighting options. Our residential collection is designed to support how people truly live—through warmth, function, and thoughtful detail.

From statement pendants to subtle architectural pieces, every fixture is crafted to adapt to the space it serves.

What Makes Bock Residential:

- Customizable fixtures
- Custom powdercoat finishes and cords
- Integral LED and lamped options
- Multiple sizes across collections
- Interior and exterior solutions
- Design and specification support

Design your fixture.

Every Bock residential fixture can be tailored through finish, cording, and light source selection. This flexibility allows designers to coordinate lighting with material palettes, architectural language, and the emotional tone of a space.

From subtle neutrals to bold statements, lighting becomes an extension of the interior.

Residential Collections

Lighting Throughout the Home

Lighting plays a unique role in every space of a residence. The needs of a kitchen differ from those of a bedroom, just as exterior lighting creates a different experience than interior spaces. The following sections highlight how Bock fixtures can be integrated into key residential environments, pairing thoughtful design with practical function.

- Living Rooms & Gathering Spaces
- Kitchens & Dining Areas
- Bathrooms & Vanity Spaces
- Bedrooms & Private Spaces
- Exterior & Entryways

WARMTH · SCALE · ATMOSPHERE

Fixtures for Living Room Applications.

By Bock Lighting

Living spaces should feel warm, layered, and inviting. Lighting here supports both connection and comfort, creating an atmosphere that adapts from daytime activity to evening relaxation.

- 1 Larger Fixtures

Integral LED

1250LM 1500LM 1700LM 2000LM

Our LED Lumen Options

For Integral LED Fixtures we can offer 4 different lumen options: Plus an option for 0-10V dimming. Areas in your home with more activity require more light. Being intentional about brightness will give your home a classy and thoughtful feel.

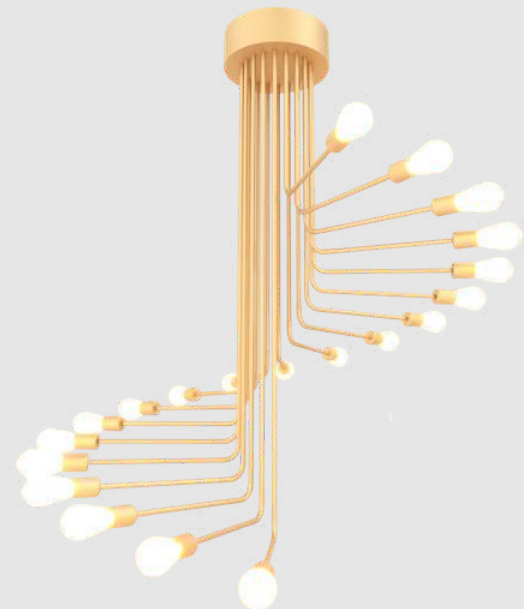

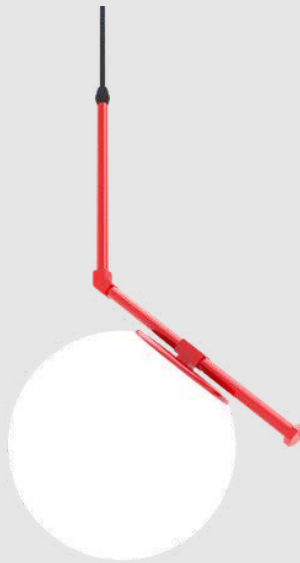

27K 30K 35K 40K 50K

Our LED Kelvin Options

With Integral LED we can also specify the warmness of the light. We have 5 options available to choose from. Areas of relaxation typically have warmer light and areas of productivity and focus has cooler light.
